27 Nov Battle Report

BK290757 (Clandestine) Voice of Democratic Kampuchea in Cambodian to Kampuchea 2330 GMT
27 Nov 79 BK

[Summary] From the beginning of October to mid November, the Vietnamese enemy carried out the first phase of its dry season offensive in the northeastern region, consisting of Ratanakiri and Stung Treng provinces, using four divisions of Vietnamese troops and a large number of tanks and artillery pieces, in an attempt to wipe out our army and guerrillas, massacre our people, destroy our people's food crops and completely stamp out the struggle of our people of all nationalities in the northeastern region. But our heroic army, guerrillas and people of all nationalities in the northeastern region, who have great love for their nation, people and race, have united closely, actively and vigorously implemented our three combat tactics and counterattacked the Vietnamese enemy in a valiant and widespread manner, inflicting daily losses on the enemy and routing its big and small suppressive drivers.

"During this first phase of the dry season offensive, the enemy opened three big battlefields: the battlefield in the upper part of Veun Sai stretching from (O Lalai) through to O Dambok and in the area along the Kamuchean-Lao border, the battlefield below Veun Sai in the area between Route 19 and the Se San River, and the battlefield in the area west of the Se San and Se Kong rivers and Siem Pang.

"Our heroic army, guerrillas and people of all nationalities have jointly implemented our guerrilla war line and three combat tactics in a lively and vigorous manner and fought day and night to rout the Vietnamese offensive on these three battlefields. Up to mid November, that is after a month or so had elapsed, with the use of primitive weapons such as poison-tipped stakes, arrows and punji pitfalls. We successfully routed this first phase of the dry season offensive of the Vietnamese enemy.

"On the battlefield stretching from (O Lalai) to O Dambok and along the Kampuchean-Lao border, our heroic army, guerrillas and people of all nationalities fought valiantly for over a month, and on 8 and 9 November routed the two regiments of Vietnamese forces and causing them heavy losses in manpower. The survivors fled in disarray to the area on the bank of the Se San River. On the battlefield below Veun Sai, that is, the area between Route 19 and the Se San River, after over a month of valiant struggle, our heroic army, guerrillas and people of all nationalities routed the two regiments of Vietnamese troops who fled to O Cheng and Hat Baoh. The Vietnamese enemy suffered many killed and wounded by our primitive weapons. On the battlefield west of the Se San and Se Kong rivers and Siem Pang, we crushed and cut the Vietnamese forces to pieces. We are continuing to crush the enemy forces daily. As for the over 100 tanks--particularly the Soviet T-54 tanks--which accompanied and helped to provide cover for the infantrymen, they dared not move down the roads because they had already fallen into our heavy encirclement once in September."

Our heroic army, guerrillas and people of all nationalities are now jointly striving to strengthen our system of primitive weapons in all areas and advancing more deeply into the enemy perimeter in the battlefield west of the Se Kong and Se San rivers and Siem Pang.
